

# Information Builders

Information Builders is one of the largest independent software companies in the world. Our i-business technology solutions help you grow your business through the power of information.

## WebFOCUS for SAP

WebFOCUS for SAP can access virtually any information source and deliver it in a variety of formatted reports to browsers, wireless devices, and e-mail addresses.

### Getting the Most From Your Investment in SAP

In today's rapidly changing global marketplace, the ability to respond quickly and decisively to dynamic market conditions is crucial to the success of business. That's why companies worldwide have deployed ERP solutions such as SAP™. These powerful business applications have enabled organizations from every industry to improve the way they operate and compete more effectively. While ERPs provide significant benefits, companies often find the need to supplement them with additional capabilities in order to achieve critical business goals.

### Savvier Business Intelligence

Decisive action requires sophisticated enterprise-level intelligence from all your SAP and non-SAP data sources to get an accurate real-time snapshot of your business operations. To help SAP users meet that need, Information Builders offers WebFOCUS for SAP R/3™ and WebFOCUS for SAP BW™.

### Full WebFOCUS Functionality

WebFOCUS for SAP supplies all the power and functionality of our standard WebFOCUS business intelligence solution – supporting today's most critical e-business and e-government initiatives such as B2B, B2C, and B2E – but is optimized to work seamlessly with your SAP system. With this set of highly integrated reporting tools, you can produce all the mission-critical reports essential to business processes, in both client/server and Web environments, in a variety of report formats – HTML, Adobe PDF, and spreadsheets. Features and benefits include:

- Universal information access for reporting from both SAP and non-SAP data – over 85 data sources in all
- Synchronization with R/3 security, which eliminates the need for additional security procedures

## Find Out More

To learn how WebFOCUS can help your company succeed, talk to an Information Builders representative today. Contact your local Information Builders office, visit us at [www.informationbuilders.com](http://www.informationbuilders.com), or in the U.S. or Canada, call (800) 969-INFO.

- The ability to create custom, complex, and parameterized reports, ad hoc queries, or OLAP-style analysis from operational R/3 and BW data or any data mart or data warehouse, with drill-through capabilities to any data in your enterprise
- The generation of native ABAP language so you can access all SAP R/3 data structures, metadata, and the security infrastructure
- A managed reporting environment that lets administrators maintain control over reports and sensitive data while insulating users from the complexities of operational data
- Automated report distribution and subscription reporting for scheduling reports and automatically distributing them via e-mail and handheld devices such as PalmPilots™
- Sophisticated query governing for optimizing systems usage and costs
- An integrated 4GL language with the most extensive capabilities of any SQL product on the market

### SAP Business Information Warehouse Support

Serving as the business intelligence hub for the SAP solutions delivered within mySAP.com, SAP BW provides predefined business content to SAP applications. WebFOCUS for SAP BW is a powerful Web and client/server business intelligence solution that empowers all levels of users to access data in SAP BW.

### SAP-Certified Solutions

WebFOCUS for SAP has been developed with leading members of the SAP community, resulting in world-class reporting solutions that integrate tightly with R/3 and BW. All your SAP security protocols will be maintained, ensuring the safety and integrity of your information systems.

SAP recognizes the benefits of WebFOCUS for SAP and has designated Information Builders a "Complementary Software Partner with Certified Interface." SAP certification is your best assurance of the highest quality products to complement both R/3 and BW.

### Comprehensive Support and Service

To ensure rapid deployment, Information Builders provides comprehensive installation, training, and consulting services for WebFOCUS for SAP. Our highly skilled specialists will help you implement and configure your solution for optimum performance.

### An Edge for Success

Today WebFOCUS is helping organizations all around the world leverage their SAP implementations for a greater return on investment. These companies span every major industry from high technology and automotive to aerospace and pharmaceuticals, and include leading companies such as Nissan and Microsoft.
